

To Whom It May Concern:

Recommendation for Saratoga Technologies

Several months of BNI meetings passed before I approached Mr. Ron Jenkins at Saratoga Technologies about purchasing a new computer for my business. After discussing my company's needs with Mr. Jenkins, he ordered and installed a new computer at my business office. During this time, he never tried to sell me any additional equipment that I did not want or need.

After installation, any time I had a quick question, Mr. Jenkins sent someone to my office within an hour to answer my question or make a quick adjustment. Therefore, I would highly recommend Saratoga Technologies to any business that is in the need of a new computer or computer repair. Whether your business is large or small, Saratoga Technologies can take care of all your computer needs.

Sincerely,

David Brewster, Owner
Aqua Clear Water Systems, LLC
